

## WEBER AAA™ RTV Silicon Gasket Maker

### High-Performance RTV Silicone Sealant Grey

Item no. R-W-1-85-00125

Package size: 85g 3OZ

#### Details

**WEBER AAA™** is a premium-grade RTV (Room Temperature Vulcanizing) silicone gasket maker engineered for maximum sealing performance across a wide range of applications.

Formulated with advanced **cross-linking agents** and **silane chains**, WEBER™ AAA offers:

- ✓ Long-lasting flexibility
- ✓ Strong adhesion
- ✓ Sensor-safe sealing
- ✓ Non-corrosive properties
- ✓ Excellent resistance to automotive fluids and high temperatures
- ✓ No hardening of silicone inside the tube after breaking seal up to 20 days

#### Versatile Application

Perfect for automotive engines, small engines, go-karts, minibikes, and critical systems such as: Cylinder heads, Oil pans, Carburetors, Exhausts, Transmissions, Propane systems, Mufflers, Diesel and gasoline systems, General high-temperature sealing tasks.

#### Ideal For

Mechanics, Repair professionals, Automotive workshops, Industrial maintenance teams, DIY enthusiasts

#### Technical Specifications

- **Base:** advance cross-linking and silane chains
- **Colour:** grey
- **Package:** Tube with nozzle, packed in a branded carton
- **Handling time:** 7 min
- **Dry Time:** Approx. 1 hour
- **Full Cure Time:** 18 – 24 hours
- **Temperature Resistance:**
  - Low: -80°F (-26.6°C)
  - High: Up to 665°F (352°C) intermittently
- **Shelf life:** 1 year
- **No hardening time:** up to 20 days silicone inside the tube after breaking seal
